KARES

## KWICK ACQUIRING & RETENTION ENTERPRISE SYSTEM

AUMTECH
Delivering Smart Innovative Solutions

WHAT IS KARES

The KARES is a multi processor platform enabled RAD framework. Some of its salient features are:

- Multi Processor Framework
- Easily configure your IS(O)/(A) and Agents
- Maintain Department and its Heads at all levels
- Data provisioning is profile based and dynamically setup
- SSO signup makes seamless movement across multiple modules (depending on ACL)
- Provision to define Sell / Buy rate of all earnings / expenses with splits with ISO / Agents
- Time based role delegation
- Computes residuals of 15K merchants within minutes

Lead → App Capture → Online Credit Eval → Underwriting

Processing ← Terminal Boarding ← Merchant Boarding ←

TSYS

FDR

GETI

EXP

Discover

TU
